LOCAL AND PERSONAL.

Yesterday M. A. Chancey was exhibiting about town some branches loaded with pecans which grew on his place in town this year. Mr. Chancey has some 25- and 30-year old seedlings that, like most of the native trees of the state, failed to make a crop this year. His improved grafts, however, are making a splendid crop. A striking example is a three-year old Oliver branch, top-worked into a native seedling, that is loaded with nuts while the seedling branches by which it is surrounded are barren of fruit, notwithstanding they all blossomed at the same time.

A complaint has been filed in Judge Lamm's court by Tick Inspector E. J. Murray against W. M. Collins, charging him with moving cattle without the proper authority. According to the complaint, defendant bought a cow and moved her to his home at D'Hanis, a distance of about one-half mile. The case had not been heard up to Thursday. We understand Collins has signified his purpose of entering a plea of guilty.

By the marriage of Sr. Grabino Griego and Srta. Maria Manuicio, Gen. Francisco Murguia has possibly lost a valiant soldier in his effort to get President Obregon's job. The wedding occurred at the home of Judge Lamm Monday, the Judge in his most suave manner officiating. When Grabino feels belicose he won't have to cross the Rio Bravo for a scrap. He can possibly be accommodated at home.

Clarence Schweers went to San Marcos last Monday and entered the Southwest Texas Normal for the coming term. He was accompanied to the Hays county capital by County Superintendent W. N. Saathoff, who paid his old Alma Mater an enjoyable visit. Prof. Saathoff says the Normal, like all the other higher institutions of learning, is swamped by the great influx of students.

Sebastian A. Tschirhart Jr. was down from Medina Lake Wednesday on legal business and while here paid the Anvil Herald office an appreciated call. Mr. Tschirhart informs us that he has opened up a hunting and fishing lodge on the lake where camping parties can be accommodated. The Lake is becoming a widely famous pleasure resort.

H. Hartman left Friday morning for New York where he will make final preparations for his entering the wholesale Dry Goods business. In the meantime his force here is in somewhat of a silence and something sort of an unexpected occurrence is due to happen next week. At least this is what we are promised.

The members of the 1922-1923 Senior class of the Hondo High school, after surmounting difficulties and discouragements that would have deterred less resolute spirits, have at last completed arrangements for issuing volume IV of the Huajillo Leaf, the High School paper. Part of the copy is already in the hands of the printers and the initial number will be issued from the Anvil Herald's Print Shop next week. This commendable undertaking on the part of these young people is deserving of all the encouragement it can possibly receive, and if you have not subscribed for it or placed your order for advertising in it you still have time to do so if you act at once. Help this class to maintain the high standard set by previous volumes of their school paper.

C. W. Grell, one of our progressive rural route subscribers, was a business visitor at this office yesterday. Mr. Grell took advantage of our clubbing offer of the Anvil Herald and Farming to have the latter come to his three farmer boys for a year. Thus are our friends helping us to establish firmly and permanently our farm publication. We wish fifty thousand other Texas farmers would do the same thing for their boys—and girls also.

Dr. B. R. Bradley left on Friday morning for Waxahachie on the sad mission of attending the funeral of his sister, Mrs. Mary Gillespie, aged 87 years. Dr. Bradley was joined by his brother, John, at Buda, who will accompany him to Waxahachie. R. A. Carter attended the Lincoln clinic at the Morgan-Woodward Garage in San Antonio. A demonstration in tearing down and rebuilding cars was given. Dealers from all parts of this territory were present.

Mr. and Mrs. A. C. Lopez and Misses Annie Leinweber, Olga Pulch and Doretta Little, all of San Antonio, were guests of Mr. and Mrs. L. A. Mechler Sunday. Carload shipments for the week totaled 13 cars, seven forwarded and six received, as follows: Forwarded, 3 cars cotton seed, 3 cars of corn and 1 of cattle; received, 1 car of cement, 1 of lumber, 1 of coal, 2 of oil and 1 of Ford cars.

Beginning the first of October we will hemstitch or picot at the following prices: 8c per yard for hemstitching thread; 10c per yard for silk thread. Orders less than one yard 10c. Otto Sprott of the Tarpley section paid this office an appreciated call the first of the week, enrolling on our subscription list for the Anvil Herald and Fletcher's Farming. Mr. Sprott has some good seed oats of the last year's crop on hand which he offers in an advertisement in this issue.

FUNDAMENTAL REVELATION
in
DRAMATIC SYMBOL.
By Rev. J. T. Horger.

VI—Continued.
Noah's Ark and Its Contents.

In our last article we introduced this subject, taking the position that the Flood was an illustrative demonstration of God's retributive judgment against the impenitent sinner, and His executive power against sin. And that on the other hand, Noah's Ark was an illustrative symbol of the whole plan of redemption, as taught throughout the scripture. And that the best and most practicable application is that it sets forth the steps by which each soul is to be redeemed. As recorded in Gen. 6:14 to 16, God gave Noah the plan, saying, "With LOWER, SECOND and THIRD stories shalt thou make it. Also a door in the side and a window above." We notice that about two thousand years after this that God strictly charged Moses to build the Tabernacle after the pattern God had given him, and about five hundred years later, David carefully instructed Solomon to build the Temple after the manner which David said was revealed to him by the Spirit of the Lord. We repeat that the Ark, the Tabernacle and the Temple were each God-given illustrative types of the process by which the soul is to be saved.

We will now notice that the Ark, having THREE stories, also had THREE kinds of beings on board: the UNCLEAN, the CLEAN animals, then Noah, his wife, his THREE sons and their wives, all of whom we, according to other like symbols in scripture, given to teach the same truth—denominate, VERY CLEAN. In our last we had discussed the lower story as standing for the Father's dispensation and the unclean beasts, which we supposed were in the lower story, as representing the unsaved sinner, the same character Cain represented in the God-given drama of Adam's three sons, already discussed in the "Anvil Herald" some weeks ago.

We now proceed by saying that the SECOND story of the Ark stood for the Son's dispensation, and the CLEAN beast, which we presume were in the second story, represented the regenerate, the BORNED of the Spirit, the children of God. Let me say here, that Jehovah clearly taught his people that the unclean beast was not to be offered in sacrificial service to God; thus illustrating that the service of the unregenerate, who are spiritually unclean, is not acceptable to God. But the clean beasts were acceptable in sacrificial service, thus signifying that those born of the spirit are counted clean, and therefore their service is acceptable to God. These clean beasts in the second story of the Ark represented the regenerate and daughters of God, the same character that Abel, the second son of Adam, represented.

If some one should find fault with the comparison of the merely regenerate to the clean beast, feeling that God's children are not to be likened to beast, we answer, that while it is true that the children of God are possessed of the spirit and mind of Christ, the scriptures also teach that those who are MERELY regenerated—born of the spirit and not as yet wholly sanctified—are also possessed with the carnal mind, the affections of which are strongly inclined to the material, animal, licentious and devilish things of earth. The comparison is not too strong. Will say that this comparison is God-given, and in harmony with the manner in which the same state of grace is set forth in other symbols, and also in many plain statements in New Testament scripture.

Now we come to the THIRD and last story of the Ark, which stood for the dispensation of the Holy Ghost; and we presume that Noah and his wife, their three sons and their wives were all in the upper story, and that they, being the highest type of life on board the Ark, the true symbol of the old ship of Zion, were the representatives of the genuinely sanctified children of God.

They in the THIRD story of the dispensation of the Holy Ghost, into Ark stood for the same character as which we are initiated by the baptism that of Seth, the third son of Adam. of the Spirit; thus He sanctifies the They also represented that state of soul and AHIDES therein. sanctification for which Jesus prayed. Yes, when the last seven days for his disciples,—John 17:17. A were ended, Noah sent her out, and careful study of this chapter will she returned to the Ark no more. show that those whom Jesus was Thus, she vividly and forcefully illustrating the scriptural fact that the the Father, and SECOND, they had THIRD dispensation—that of the been given to Christ, and THIRD, Holy Ghost—is the ONLY dispensation in which He finds place and condition in the heart, such that He all Bible scholars, so far as I know, abides, provided, of course, that we are agreed occurred on the day of continue true and faithful up to all Pentecost, a little more than fifty the light that we have, or may from days after Jesus thus prayed for them, when they were baptized with His Word and by His Spirit. These the Holy Ghost and Fire, by which conditions met, HE WILL ABIDE. act of grace they passed from the There is another feature or two of the Ark that we must speak of before we close this chapter, namely, that the Ark had but ONE door and ONE window and from the best information we have the door was in the LOWER story and the window in the THIRD story, and it appears to have been a sort of an outlook towards Heaven rather than towards the earth. It was at this window that Noah put the Dove out to search for a resting place upon the earth.

Now, bear in mind that this Ark was the God-given type of the whole plan of salvation, of which Jesus was the author and finisher through the sacrifice of Himself on the Cross of Calvary.

Referring to the entering into salvation, Jesus said, "I am the door * * * no man cometh to the Father except by me." There is but one way, and only one door into the old ship of Zion; this fact is symbolized in Noah's Ark by the fact that God instructed Noah to build ONE door in the side of the Ark. That door is by way of repentance towards God, and faith in Jesus Christ as the sacrificial lamb of God that taketh away the sin of the world by the virtue and power in His own blood. "Without the shedding of blood there is no remission of sin."

The blood of Jesus Christ, His Son, cleanseth us from all sin. Yes, "There is power in the blood." There is pardon, there is life, there is cleansing, there is wonderful power in the blood. There was ONLY ONE door in the Ark.

The Ark had only one window—a sort of lookout—to it, and that was toward the Heavens—toward the Celestial City. This beautifully signifies that the way of salvation fully provides for an outlook beyond this vale of sorrow and tears, and that those who have really boarded the old ship of Zion, and that are truly and faithfully sailing towards that city not made with hands, are looking through that window of heavenly vision, with eyes fastened on the City of joy eternal; with streets of gold, and the river of life and love forever flowing from God the Father and the Lamb throughout that eternal day whose sun shall never go down.

Oh! how plain it is set forth in the Word of God that the soul must pass through three dispensations in order to salvation, genuine and thorough. In the first, an unsaved sinner; the second, a regenerate child of God; and the third, the truly sanctified by the baptism of the Holy Ghost and Fire, walking in the most effulgent glory of God's perfect love on earth, being made fit, meet for the Master's use in every good word and work in this sin-cursed world.

Yes, the Ark had THREE stories, and contained THREE kinds of inmates, and the Dove made THREE trips, and the Apostle Paul said: "ALL SCRIPTURE is given by inspiration of God, and is profitable for CORRECTION, for INSTRUCTION in RIGHTEOUSNESS." And yet, dear reader, have you ever taken notice of the fact, that nearly all the theological teaching and preaching in this day, practically, have but TWO stories, that is, departments, namely: the unsaved department and that of the MERELY regenerate. Little or nothing is said of the third, the sanctifying, dispensation, the most glorious of all.

Now let us get the whole truth in a nutshell. The THREE stories of the Ark represent the three dispensations, that of the Father, Son and Holy Spirit. The three kinds of inmates in the Ark stood for the three conditions of each soul that is, or shall ever be redeemed. The three trips of the Dove, the work of the Holy Spirit in His progressive steps in the salvation of each soul redeemed. The door in the Ark sets forth the fact that there is only one way into salvation; that is, by true repentance toward God and faith in Jesus Christ, obediently accepting Him as our personal savior; which puts us on board the old ship of Zion, and by climbing to the third story, we will have an outlook through the only window into the beautiful Golden City, our eternal home, whose builder and maker is God.

I believe in the Father, the Son the fact that the Son's dispensation and the Holy Ghost: All Honor, —regeneration—is separate and Praise and Glory be unto the Triune apart, clear and distinct from the God forever and ever."

GARNER REVEALS IN LIMELIGHT AT WASHINGTON.

Feat of Texas Congressman in Re-committing Tariff Bill is Highly Praised.

Christen Garner With Name, "Mustang Jack."

Garner's Name Mentioned for Speaker If Democrats Win Majority This Fall.

Washington, D. C., Sept. 14.—Congressman John N. Garner of Texas today was the biggest figure in Washington, for the day at least. Wherever he went the Texan was acclaimed as a "miracle man" for his victory yesterday in bringing about the recommitting of the Fordney-McCumber tariff bill. Everywhere the little, stocky figure of Garner appeared he was greeted enthusiastically and congratulated. Not all who congratulated him favored his move, but republicans, admiring a masterly parliamentary stroke, told him so.

If the house of representatives had been a football field Wednesday Garner would have been carried about the chamber upon the shoulders of admirers, but being merely a dignified parliamentary body the members gathered about Garner and sent up rebel yells. Meanwhile, Garner had a new title and a full-fledged boom for speaker of the next house when he arose this morning. "Mustang Jack" someone started calling him, and everyone seemingly took it up. Years ago there was a "Mustang Jack" who rounded up wild horses in Texas chapparral and today Mr. Garner, who rounded up more than 100 unruly republicans Wednesday and herded them into the democratic reservation, was "Mustang Jack."

Record sharks going through the dusty congressional documents today found that never until Wednesday, when Garner drove a wedge into the republican ranks, has a tariff bill been recommitment with instructions.

When Garner went to the senate today he almost broke up proceedings. Democratic senators gathered around him and republicans also came over. Garner appeared in the house of representatives with a full day's growth of beard. He said he spent the night and morning hours planning another coup. Congressmen Longworth of Ohio, McArthur of Oregon and Mills of New York, all republicans, made up a purse of 15 cents and took it across the aisle to Garner.

"We want our leader to look well," Longworth said. "You led more republicans yesterday than the supposed republican leaders did. We don't want the galleries looking down on an unshaven leader."

Garner took the 15 cents and went out for a shave.

Democrats asserted that if the democrats win the house this fall Garner will be elected speaker.—Austin American, September 15, 1922

FROM THE BANDERA NEW ERA.

Mrs. E. W. Lacy and daughter, Ashbell Gilliam and wife, and Miss Mollie de Montel, all of Hondo, were among the visitors in the city a few days ago and were guests of Mr. and Mrs. J. W. Short. They attended our county fair while here and were delighted with it.

J. A. Head returned last week from an extended trip through Missouri, Kansas and Oklahoma, where he visited relatives and old friends. He greatly enjoyed his trip and returns home very much improved in health.

Mrs. Will Batto is making life uncertain for the hawk population. For some time chicken hawks have been preying on the Batto farm and carrying off choice frying size chickens, but Mrs. Batto has secured a shotgun and when one of the hawks gets in range that gun goes off and there is one less bird of prey to worry about. Last Saturday she killed one of the largest that has been seen around the premises.

Mr. and Mrs. Chas. Eckhart and sons attended the fair at Hondo last week.

Richard de Montel, who has been living below town, has moved to Camp Verde.

Mrs. Howe, who lives with her brother, J. A. Head, left Tuesday for Bokoshe, Oklahoma, and Fort Smith, Arkansas, where she will spend the winter with relatives.

R. N. Padgett and R. A. Robison were over from Tarpley Monday on business. Mr. Padgett informs us that some of his registered goats took blue ribbons at the Hondo fair last week, and he sold quite a number. He says he has only a couple of billies left and as soon as they are sold he is going to begin taking orders for next year's stuff. Mr. Padgett is now the owner of the nationally famous goat, "King Quality," which he recently purchased from Thomas, the well known Kentucky breeder.

Mr. and Mrs. Louie Haegelin were in from their pretty farm Saturday accompanied by their bright little children. Mrs. Haegelin paid the New Era a pleasant visit and informed us that she visited relatives and friends at Castroville several days last week and had a most enjoyable time there.

Nervous Break-Down

MRS. ANNIE LANGE, of R. F. D. 1, Burlington, Tex., writes as follows regarding her experience with Cardui: "Some time ago I had a nervous breakdown of some kind. I was very weak and so nervous. I had fainting spells and suffered a great deal, but more from the weak, trembly, no-account feeling than anything else. I knew I needed a tonic, and needed it badly. I began the use of Cardui to see if I couldn't get some strength, as I knew of other cases that had been helped by its use. I soon saw a great improvement, so I kept it up. I used seven bottles of Cardui, and can say the money was well spent, for I grew well and strong. Am now able to do all my housework and a great deal of work besides."

If you are weak, run-down, nervous and suffer from the ailments peculiar to women, it is very likely that Cardui will help you, in the way it helped Mrs. Lange and has helped thousands of others, during the past 40 years. Ask for, and insist on, Cardui.

Peach trees blooming and the second crop of mulberries on his trees, Judge A. M. Lamm anticipates good eats at his home in the near future. The rains the first of the month have brought all this about, and is another evidence of what the county is capable of if we had plenty of moisture. When the present generation of inefficient that now encumber West Texas are shoved off the map and their places taken by a more progressive citizenship this section will probably surpass California in the growing of all fruits adapted to the temperate zones. We have the fertile soil which California lacks, and with water in abundance, its possibilities are beyond estimate. However, we fear the Judge's anticipations, as far as this year is concerned, are doomed to disappointment. Frost, which is due in about two months, will possibly put an end to his fruit crop for this year. Had the rain been a month or six weeks earlier, the chances for a second crop of fruit would have been excellent.

A human derelict giving her name as Consuelia Gomez, aged about 12 years, was picked up on the road beyond Castroville Wednesday evening by Wade Cameron and brought to the Sheriff's office here. The little Mexican girl was walking, headed west, but as far as anyone has been able to learn, had no particular point in view as the end of her destination. Her total worldly wealth consisted of twenty-eight cents, which she had tied up in a handkerchief. While she can hardly be termed demented she is far from being bright, and the authorities have thus far been able to elicit but little information as to her family or where she is from, further than that she has a mother but no father. She is now at the home of Antonio Garcia, and the Sheriff's department is using every means to locate her family.

MRS. G. W. DAYHOFF.

Mrs. G. W. Dayhoff, a citizen of Hondo for thirty-three years, died suddenly at the home of her daughter, Mrs. M. A. Chancey, at 11:45 Friday morning. Deceased had been in failing health for some time, but her death came as a shock, as she was up and around during the morning, and apparently was no worse than she had been for some time. Her death resulted from stomach and bowel trouble.

She came to Hondo as Mrs. J. B. Beal, her marriage to Mr. Dayhoff occurring here, and she had resided here continuously ever since. Her last husband preceded her to the grave by some six or seven years.

Besides her daughter, Mrs. M. A. Chancey, and quite a number of grandchildren, and great-grandchildren, she is survived by three brothers, all residents of Texas.

The Anvil Herald hopes to be furnished with an obituary prepared by some one familiar with the life of deceased, for use in a subsequent issue of the paper.

No funeral arrangements had been announced up to noon Friday, this announcement being dependent upon advices as to whether relatives and friends in various parts of the state

will be able to be present, but it was thought it would occur some time this (Saturday) afternoon.

The Anvil Herald, in connection with a host of other friends, offers sympathy and condolence to the grief-stricken family.

We are pleased to acknowledge a newsy, interesting communication from Yancey this week. We hope our correspondent will come often and give us all of the community news. And we would be greatly pleased to receive occasional communications from every community in the county. Help us make this paper a real "county newspaper."

A casual glance at the statements of our local banks, published last week and this, shows that there is no shortage of money in this community. Get busy; pay up; pass the money around; and let's get out of debt by making the money circulate.

Miss Marie Schmidt, who has spent several weeks here as the guest of her relatives, Mrs. L. J. Schmidt, has returned to her home at Champagne, Illinois.

JOSEPH DECKER.

Mr. Joseph Decker died at his home on the Verde Creek at eleven o'clock Monday night, September 25, 1922, after an illness of some six weeks' duration.

With the passing of Joseph Decker, this community has lost another of its first pioneers who came to take the place of the Indians.

Joseph Decker was born in Western Germany in 1836. He came to this country with his parents in 1847.

But he was soon left an orphan to steer his own career. He was married to Theresa Wantz, who preceded him to the grave only a few months ago, February 12, 1922. The following children survive them: Louis, Henry and Robert, living in Vandenberg; Mrs. Ben Riff, Mrs. E. R. Leinweber, Mrs. Louis Rothe of Hondo, and Misses Lina and Louisa Decker who occupy the old homestead.

Mr. Decker was of a kind and amiable disposition, good to his family and the neighbors. He was of a robust constitution and enjoyed excellent health all his life. About 6 weeks ago, however, his health began to give way and grew worse gradually until last Monday night when he answered the summons of his Creator.

Funeral services were held by Rev. F. Paliache, Catholic pastor of Hondo, from the residence and his mortal remains were taken to the family burying ground near the place where he spent over 70 years of his life. He was accompanied to his last resting-place by a large concourse of people, who, by their presence and floral offerings testified to their esteem of the deceased and expressed their sorrow at his departure from this world.

May he rest in Peace.

WHAT THE TAX ROLLS SHOW.

Tax Assessor L. E. Heath has completed his tax rolls and the same have been examined and approved by the county commissioners. Taxable values show a decrease—\$490,608 as compared with the rolls of 1921. This decrease is accounted for by a lowering of the value of live stock made by the commissioners court. Out of several thousands of dogs in the county the owners of but eight of them canines thought enough of them to render them for taxes. Their total value was placed at \$190.

We are indebted to Assessor Heath for the following synopsis of the rolls:

	Value
Land, acres, 825,149	\$5,512,330

ilroads, 56.39 miles	579,070
alue of rolling stock	295,600
tangible assets	418,383
elegraph and telephone lines	37,700
TOTAL VALUES	\$12,037,613

Following are the values and state taxes:

Resident rolls, value \$7,488,040; state taxes, \$56,160.33; state revenue \$1,371; state school poll, \$2,122; total, \$60,273.33. Non-resident rolls, value \$2,879,700; state tax, \$21,596.77. Unrendered rolls, value \$160,710; state tax, \$1,205.31. Railroad and telegraph lines, value \$325,753; tax, \$9,943.15. State and National Banks, \$183,400; tax, \$1,376.54, making a grand total of \$94,395.10, which property holders of Medina county must pay to the state treasury.

The county rate this year is 80 cents on the hundred dollars valuation, which, with the special taxes that have been voted, will be the amount taxpayers will be called upon to pay. This tax will vary in each of the commissioners precincts, owing to the amount of school taxes voted. Even then tax payers living in the same commissioners precinct, but in a school district where no school taxes have been voted, will pay a lower rate than where such tax has been levied.

Following is the tax rate per \$100 valuation in the various precincts of the county, to-wit: Hondo commissioners precinct, \$2.05; D'Hanis precinct, \$2.05; Castroville precinct, \$1.84; while the rate in the Devine precinct is \$2.67.

The general average of land values in the county is \$6.68 per acre. From the above information anyone having a record of their assessment can approximate what they must bring in their pocket books when they face the tax collector.

ARMY AIRPLANE FALLS.

A United States army airplane, with Lieut. Charles Douglas, as pilot, and Corporal L. J. Garner, mechanic, aboard, fell, or rather, made a forced landing in the King field, about one and a half miles west of town, about 7:30 Wednesday evening.

The aviators were en route to Kelly Field, San Antonio, from El Paso. They left Sanderson about 4 o'clock on the last lap of their flight, with their machine "hitting on all twelve," and passed over Hondo about 7:20 headed east. In a short while they returned here, flying rather low and looking for a landing place. Shortly after leaving Sanderson the exhaust got very hot, finally burning practically in two, one part swinging back and resting on the gasoline tank. The aviators became uneasy, fearing the heat would cause the reservoir to explode, and they concluded to land, but as it was rather dark, a landing place was somewhat difficult to locate. Passing east of Hondo no suitable place to bring the plane to earth was found and they flew back here. Seeing an automobile out near where they finally came to ground, they circled over the machine a few times, endeavoring to get the benefit of the headlights of the car in making the descent, but as the automobilist did not divine their desire, he kept on his way.

The aviators, deprived of this assistance, decided to take pot-luck and headed the plane for the ground, striking the earth with the machine at an angle of about 45 degrees. The force of the impact broke the axle of the landing gear, and the plane turned up on her nose, the impact tearing the motor loose from the plane, the ship turning over on her back. The aviators in the meantime had the forethought to disengage themselves from their straps and before the ship settled on her back, jumped or fell from their seats. Lieut. Douglas was somewhat scratched and bruised, but suffered no serious injury. Corporal Garner escaped without injury.

The plane was pretty badly damaged, the wings being about the only part that escaped injury. The motor was a 12-cylinder Liberty, and will not take any great amount of repairs to again be in shape, according to Corporal Garner. A bunch of homing pigeons that were confined in the fuselage were liberated after the landing, and as they disappeared in the darkness, it is possible they left immediately for their cotes in San Antonio.

This is the fourth crash Corporal Garner has experienced in the last five months, and he is evidently a man of more than ordinary courage or there would have been a vacancy in Uncle Sam's aviation service. He seems to bear a charmed life. Everyone is gratified that the aviators came through this crisis without more serious consequences.

Early Thursday morning a plane, carrying officers from Kelly Field, came out and inspected the wreck, taking Corporal Garner back in the ship. Lieut. Douglas had gone to Kelly Field on the Jitney Wednesday night.

TEN TIMES BIGGEST CIRCUS HERE SOON.

World's Greatest Amusement Institution Ringling Bros. and Barnum & Bailey Headed This Way.

Ringling Brothers and Barnum & Bailey Day draws near and with it will come a vast circus of "ten thousand wonders" to exhibit in San Antonio Monday, October 9th.

This mammoth amusement enterprise of 1922 has been officially recorded as "America's ten times greatest circus." It is a third bigger than it was in 1921. For, in addition to the many innovations offered then, the present season's program numbers ten more trained wild-animal displays—making twenty in all—and the most superb trained horse acts that Europe has yet produced. The wild-animal and equine displays of 1921 were introduced merely that the Ringling Brothers might judge of their popularity. So enthusiastically were these numbers received that the famous showmen immediately arranged for the purchase of the world's finest acts of this kind. An entire equine circus was bought outright and brought to this country last winter. And while the Ringling brothers and Barnum & Bailey agents were securing this and the trained tiger, polar bear, lion, leopard and jaguar groups, they had orders to engage the foremost men and women performers of the European capitals. And these stars from city and jungle are all to be seen with this wonder circus of 1922. Everything, including the great double menagerie of more than a thousand animals and exhibiting such rarities as a mite of a baby hippopotamus and his three-ton mother, is to be seen for the price of one admission ticket. And by "everything" is meant not only the wild animal and equine displays, but the entire circus. More than 700 men and women, embracing the world's foremost arenic stars, take part. There are 100 clowns. Aside from the ferocious beasts, the program includes forty trained elephants. There are five companies of trained seals, many dogs, bears, monkeys, pigs and pigeons. It is the biggest circus program the world has ever seen, given under the largest tent.

TO INDIAN WAR VETERANS.

Congressman Garner calls our attention to an act of Congress entitled:

"An Act granting relief to soldiers and sailors of the War with Spain, Philippine insurrection, and Chinese Boxer rebellion campaign; to widows, former widows, and dependent parents of such soldiers and sailors; and to certain Army nurses; and to amend section 2 of an Act entitled 'An Act to pension the survivors of Certain Indian Wars from January 1, 1859, to January, 1891, inclusive, and for other purposes,' approved March 4, 1917."

Section 6 of this act reads as follows:

Sec. 6. That the second section of the Act entitled "An act to pension the survivors of certain Indian wars from January 1, 1859, to January, 1891, inclusive, and for other purposes," approved March 4, 1917, be so amended to read as follows:

"Sec. 2. That the period of service performed by beneficiaries under this Act shall be determined: First, by reports from the records of the War Department, where there are such records; second, by reports from the records of the Treasury Department showing payment by the United States, where there is no record of regular enlistment or muster into the United States military service; and third, when there is no record of service or payment for same in the War Department of the Treasury Department, by satisfactory evidence from muster rolls on file in the several State or Territorial archives; fourth, where there is no muster roll or pay roll on file in the several State or Territorial archives showing service of the beneficiary or same has been destroyed by fire or otherwise lost, and no record of service has been made in the War Department or Treasury Department, the applicant may make proof of service by furnishing evidence satisfactory to the Commissioner of Pensions: Provided, That the want of a certificate of discharge shall not deprive any applicant of the benefits of this Act."

This should be of interest to all veterans of any of our Indian wars between the dates named in the act.

RENEWED TESTIMONY.

No one in Hondo who suffers backaches, headaches, or distressing urinary ills can afford to ignore this Hondo woman's twice-told story. It is confirmed testimony that no Hondo resident can doubt.

Mrs. Heyo Schweers gave the following statement May 28, 1915: "I had an attack of kidney trouble. My kidneys acted irregularly and caused me annoyance and there were other ailments arising from disordered kidneys. I believe the trouble was brought on from a cold which settled in my kidneys. I purchased Doan's Kidney Pills at Windrow's Drug Store and a short use corrected the trouble which has never returned."

On May 3, 1919, Mrs. Schweers said: "I have had no occasion to use Doan's Kidney Pills since they cured me four years ago."

"Come on, Alice, you know Mother said we are going to have Kellogg's Corn Flakes for lunch. And that's the kind I like to eat about a whole box of, because they ain't tough to eat! Come on an' hurry up!"

Kellogg's Corn Flakes

are a taste thrill at meals or any time

That's because Kellogg's Corn Flakes are so deliciously flavored—the Kellogg flavor that is known all over the civilized world! You, as well as the little folks, can eat great bowlfuls of Kellogg's Corn Flakes day after day—and each sunny-brown, crispy, crunchy spoonful thrills the taste as though it was the first!

Put Kellogg's in comparison with imitation corn flakes! Kellogg's Corn Flakes are never tough or leathery or hard to eat! They are all-the-time crisp, all-the-time good! Don't miss such enjoyment!

Insist upon Kellogg's in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes! NONE ARE GENUINE WITHOUT IT!

WHY MINCE YOUR WORDS?

What would you say to a man who showed complete willingness to risk the loss of his life? Suppose, for instance, he were one of those misguided folks who think it sportmanlike to attempt to beat a train over a railroad crossing.

Well, it is possible he might think you were interfering with his personal affairs when you criticized him; but at the same time he could not fail to realize that you had no axe to grind and that you were acting for his benefit.

Now let's suppose another case. If you were out riding with that same person and he took chances at a crossing, you would be strictly within your rights in telling him your opinion of him.

Here is a little suggestion of what you might say provided you didn't think of something better:

"Now, Mr. So-and-so, I have heard you spoken of as a man who takes big risks at railroad crossings. I noticed you one day running a chance that I wouldn't take for a thousand dollars. I didn't remonstrate with you, for I thought you might retort that it was your own life you risked. You told another man so one day."

"Now things are different. You asked me to ride in your car. Very kind of you. I accepted with thanks."

"When we drove near the crossing, I touched your arm and said, 'Wait till that train passes before you try to cross.' You made no reply but stopped on the gas. By more luck than anything else, you got across just in time to save our two lives from destruction."

"The engineer was leaning out of his window and the fireman was in the gangway. Evidently both thought it a likely case for the coroner."

"You are foolish to do such things, when alone, but when you have a helpless passenger in the car with you, I call the act a criminal one."

"I mean what I say and I won't mince my words just for the sake of being polite."

"Politeness! Nix, no siree! I'd rather be pushed into a deep river with my overcoat on than to be humiliated across a railroad track, right in the face of an approaching train."

"Watch your step or the grave-digger will be taking some measurements in your cemetery lot."

WITH THE DRILLERS.

But little new, so far as we have been able to learn, has developed the past week. Fritz Fuchs, the discoverer of the Thrall pool, and several other prominent oil men, accompanied by their chief geologist, were here Monday and spent the greater part of their time down at the well on the Nixon ranch. The geologist thinks their chances for striking oil are excellent. The balance of the party returned to East Texas, but Mr. Fuchs has spent the week here. Work which had suspended for some days, waiting for the cement to "set," was resumed Monday and a depth of some 433 feet had been reached up to Thursday when the drill was grinding away on a very hard rock.

The Circle Oil Company, drilling on the Elenz farm, is down some 443 feet. Work has been suspended for some days waiting on a delayed shipment of fuel oil. This concern has also encountered some hard drilling in the way of rock.

The Spoons Drilling Company of the Somerset field has entered into a drilling contract with Groves, Adams and Billings, promoters of the well two and one-half miles northwest of Devine, to sink the well 3,000 feet if pay sand is not reached before that depth. This will probably be the first deep test completed in this territory.

The Ina Oil Company, boring on the George Schmidt ranch, is down some 450 feet. A strong gas pressure, sufficient to burn at the top of the well, has been encountered, more promising oil indications are being encountered daily and the promoters anticipate penetrating a rich oil sand within the next fifteen days, barring accidents.

Where Extra Service is Demanded
Firestone Cords Predominate

WHEREVER the exacting tests of tires are most severe—there you will find Firestone Cords in universal use.

The hard jobs seek Firestone. And so well has Firestone responded under difficult conditions—so consistently has mileage mounted to totals impossible to obtain from ordinary tires that today Most Miles per Dollar is the buying slogan of thinking motorists everywhere.

The blending and tempering of rubber, gum-dipped cord construction, air-bag cure—all these mileage methods have

been developed by men whose life work is the production of constantly increasing tire values for the public.

Users in this vicinity verify Firestone reputation, and report almost daily some new Firestone record of extra distance travelled.

Don't be satisfied to buy tires—buy values—the longest mileage at the lowest price consistent with such reliable performance.

Make Most Miles per Dollar your principle of tire economy—choose your next tire on that basis.

ROUND ABOUT THE HOME.

BREAKFAST FOR THE SCHOOL CHILD.

By Miss Hazel B. Letter, Consultant in Home Economics.

The busy mother, with children going to school every morning, has the daily breakfast problem and should consider the importance of every suggestion made here about the daily breakfast. No child should be permitted to omit his breakfast. If the child is to be healthy, it is a simple matter to choose the proper food for this meal.

MILK—First of all, each child must have his glass of whole fresh milk. This should not be omitted. If the meal is to properly nourish the child, milk supplies the materials to build the flesh and muscles, bones and teeth, and also furnishes some energy. Cocoa may be substituted occasionally.

FRUIT—Some fruit should be included. This is not a luxury, but greatly adds to the health-giving value of the meal. It helps to regulate the processes of the body. An orange, baked or fresh apple, apple sauce, stewed prunes, grapefruit, baked pears, boiled raisins and figs, each represent a wise choice.

CEREALS—The child should eat a serving of cereals each morning. Fortunately, there is enough variety to permit a change of cereal from day to day.

Some of the best cooked cereals for children are oatmeal, ground whole wheat, boiled rice or barley, and corn meal.

Stewed prunes, raisins, dates or figs may be added to a cooked cereal for added variety.

The cereal is served with milk and about two teaspoonsful of sugar. Too much sugar is not advisable. Under five years, one teaspoonful is sufficient, although some sugar is desirable.

BREAD AND BUTTER—The bread may be varied, as there is whole wheat, corn bread, white bread and graham bread. It may be served plain or toasted. Bran or graham muffins add variety for the older children.

STIMULATED MENI: Orange, oatmeal, with whole milk and sugar; bread; butter, milk, 1 glassful (8 ounces).

THE IDEAL.

By W. D. Trotter.

In the neighborhood where I lived when a boy, there was a jack-leg carpenter who built things on the spur of the moment. All he needed to turn out a barn, house, shed, or chicken coop, was the material, saw and hammer. Of course, most of the houses had lousy roofs, warped sides and a general assortment of cracks and holes big enough for a dog to crawl through, but that was a small matter. Jim was our neighborhood carpenter and admitted that he was the best and fastest in seven states.

The trouble with Jim's building was that he had no particular plan. A building, so far as he was concerned, was a bunch of boards and scantlings nailed together.

And, strange to say, we find Jim's most everywhere and in all walks of life. They go ahead, pell-mell, better-better, but-or-miss, and get along as best they can.

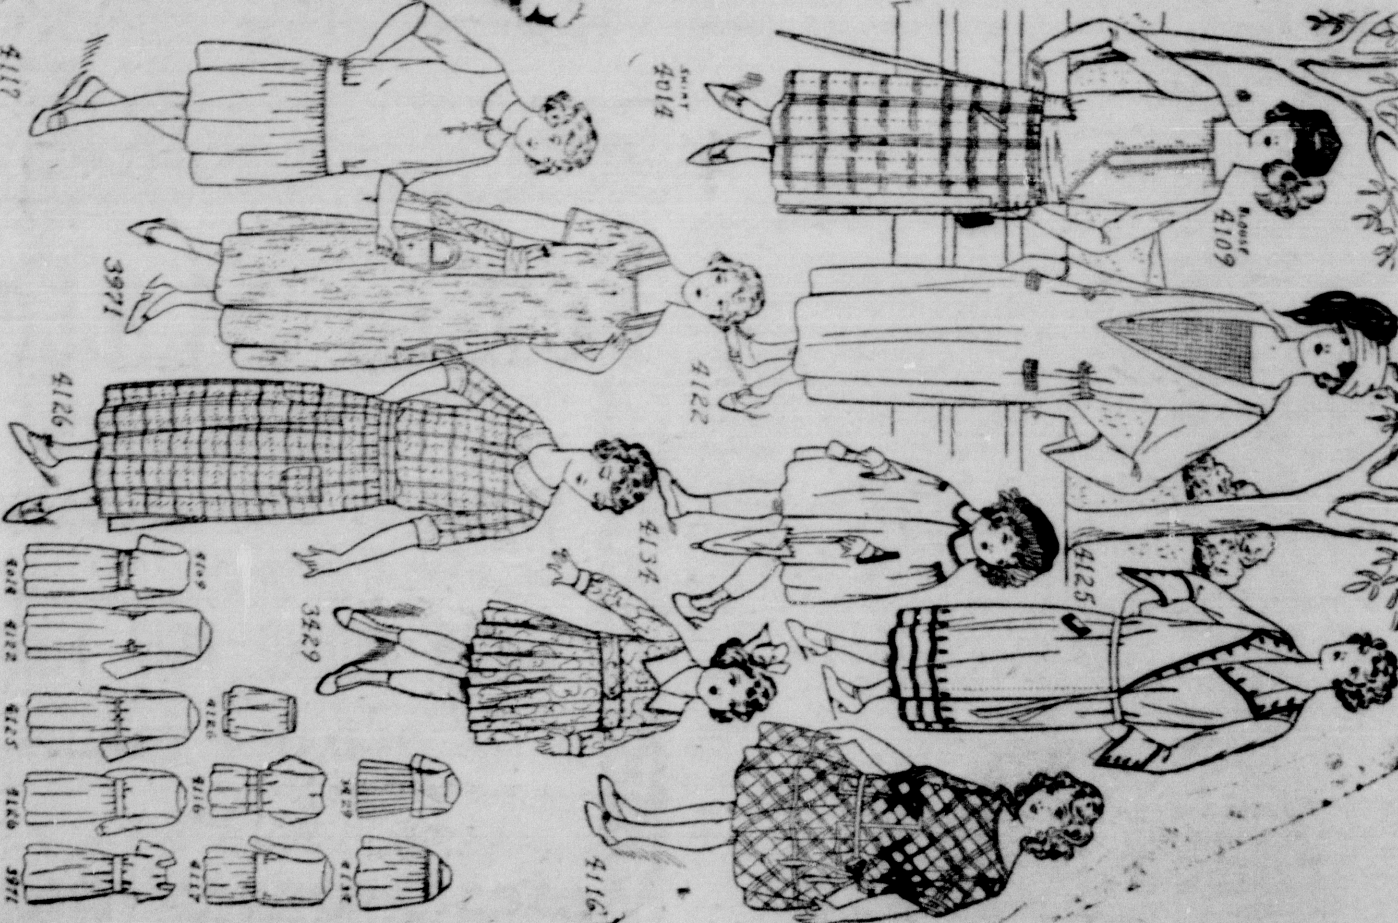

The jims are always plodders because they have no particular plan of work.

The story is told of little Willie who had a hantam hen. The little hen laid tiny little eggs and all the other boys laughed at Willie. They had regular hens that laid regular sized eggs.

Willie stood the buying as long as his sensitive nature would permit, and then took action. He got an ostrich egg, built a box over his hantam's nest, placed the egg in the box and lettered a sign on the side of the box. "Keep your eye on this and do the best you can."

That is a nice little story, isn't it?

Yes, a very nice little story, but has toward, and a plan for the attainment of that ideal, all we have to do is to label that ideal, "Keep your eye on this and do the best you can."
